HD Truck HVAC

CS188.1x: Artificial Intelligence

Russell Chapman

Freelance Full Stack Developer

Simla, Colorado

Summary

I've been programming for more than 20 years and have studied a wide variety of languages and computer science topics. Real-time graphics, web application development, and open source often grab my attention. At one time, I was a certified diesel mechanic; but due to back problems and spinal fusion surgery, I've decided to further pursue my career as a developer instead. I've worked on both client/server side code and have experience with things like:

- Content management systems (WordPress, custom)
- Static site generators (Jekyll, Hugo, Nuxt.js, VuePress)
- Responsive design (HTML5, CSS3, BEM, Sass, Stylus)
- JavaScript, Node.js, Google Apps Script, PHP
- 2D/3D Graphics, SVG, Canvas, WebGL
- Backbone, jQuery, Vue.js, Express
- Bower, Gulp, Grunt, NPM, Webpack
- OOP, MVC, REST, API, SPA, PWA
- SQL, NoSQL, MongoDB, JSON, CSV, XML
- DevOps, CI/CD, Docker, Linux, Bash, SSH, Git

Experience

Upwork

Freelance Full Stack Developer

2015 - Present

Simla, CO

Worked with various clients (worldwide) as a contractor/freelance developer. Detailed work history and feedback is available on my upWork profile page: <https://www.upwork.com/fl/russellchapman>

oDesk

Freelance Developer

September 2013 - 2015 (2 years 4 months)

Simla, CO

Deprecated by Upwork

Like Minds Designs
